

Admissions Requirements - ADN Program

Required Pre-requisite Courses:

- BIO 141: Anatomy & Physiology I (4 cr hrs)
- HLT 143: Medical Terminology I (3 cr hrs)
- PSY 230: Developmental Psychology (3 cr hrs)
- HLT 230: Principles of Nutrition and Human Development (3 cr hrs)
- SDV 101: Orientation to Health Professions (1 cr hr)
 - The SDV 101 requirement will be waived for those who have a previous college degree (LPN, Associate, Bachelor's, or higher).

All pre-requisites must be completed with a grade of “C” or higher, and the pre-req GPA minimum is a 2.7 to be considered for admission. Health and Science pre-req and co-req courses must be no more than 10 years old to transfer. Students who have more than 1 pre-req course in progress at the time of application submission will only be reviewed on a case-by-case basis.

Required Entrance Exam:

ATI TEAS testing is available at Centra College and remotely via ATI at <https://www.atitesting.com/teas/register>. ATI TEAS scores are broken down into Academic Preparedness Levels. ATI recommends that applicants achieve a level of at least Proficient to enter an ADN program. Because the TEAS test is a comprehensive exam that tests on four different subject areas, so thorough preparation is crucial.

NursingCAS Application:

Your completed online application, High School transcripts, and TEAS scores must be submitted on or before the application deadline. Completed application must be in the *Verified* status on NursingCAS on or before the application deadline.

Each applicant is considered individually using a holistic review. Meeting minimum admissions requirements does not guarantee admission.
