Device Group: Answering your questions and then some!

About the support group:

You have questions, we have answers and resources. An implantable pacemaker or defibrillator can mean lifestyle changes and anxiety. The device group provides education, an opportunity for questions, and a place to share concerns and experiences.

The following will be covered:

- Pacemaker vs. Defibrillator
- Monitors
- Basic guidelines and Frequently Asked Questions (FAQs)
- Exercise
- Importance of medication compliance and attending appointments
- Impact on your mindset
- What to do when you get shocked

Registration:

Call 434.200.2499 to register. Light refreshments will be provided.
