

## ABA IN-HOME SERVICES

We provide Applied Behavior Analysis (ABA) therapy in helping children with autism, developmental disabilities and developmental/global delays and their families develop new skills together.

The foundation of our program is based on research supported practices of applied behavior analysis. We focus on both the individual child and the family system as a whole with data driven methods to support progress.

Serving 7 regional locations across Virginia including: **Lynchburg, Danville, Farmville, Roanoke, Richmond, Alleghany, and Tidewater.** For more information or to make a referral, please contact **Crystal Collette**, DHA, BCBA, LBA, Director of Autism Services, at **434.200.5220** or **crystal.collette@centrahealth.com**

Centra is the non-profit healthcare system that provides a full range of autism support services, therapeutic educational services, and residential treatment services at Bridges Treatment Center.
