

Radiology Services

Diagnostic Patient Prep:

- **UGI, Barium Swallow, Small Bowel**
Nothing to eat or drink after midnight until after exam is completed.
- **Barium Enema, IVP**
Obtain prep from your physician office.
- **Myelograms**
Drink clear liquids day and night before exam. No solid food after midnight. On the day of the exam, drink at least 16 ounces of clear liquids prior to arrival for the exam. Myelogram patients must have someone with them to drive and accompany them at home for the rest of the day.
